

## **Bible Study Questions week starting 9th July 2020**

Is Psalm 65 a description of how life on planet earth sometimes is?

If your life was a garden, what sort of garden would it be just now?  
What fruit would you want to ripen in your soul's 'garden'?

Isaiah 55:10-13 teaches that God's word always accomplishes the purpose for which it was sent. But how does that work if we refuse to respond to his call?

What are the impediments to growth in the garden of your soul?

Which of these soils best describe you:

- Hard soil (the path)
- Shallow soil (stony ground)
- Narrow soil (thorny)
- Good soil - soft, deep and wide for God.

How does God soften a hard heart?

How does God deepen a shallow heart?

How does God broaden a narrow soil?

What steps can you take to make your life more fruitful?
