Very Simple Prayer ideas

Some very simple prayer ideas David has shared recently

Flipping Prayer

When a flipping heck (or stronger!) thought occurs, try the Flipping Prayer:

- Trust that the thought is rooted in some healthy desire for your well being
- Consider what that healthy desire must be
- Give thanks for this healthy desire
- Ask that your needs be met in God's good time
- Centre yourself again in Christ's peace

FTL prayer

If ever you feel confused and uncertain about how to act simply pray this:

- *Lord, however confused I am, show me a way to express my faith through love.*
- Then **do something loving** that fits with your faith.

Paul once wrote that this was the only thing that mattered (Galatians 5:6).

Palm Cross prayer

This is short enough to commit to memory and to pray whenever you see your palm cross.

**Lord you had the courage to be true to your calling.
Give me the courage to be true to mine. Amen.**
